

GEORGE BUSH COULD USE THE PATRIOT ACT TO SEIZE YOUR DATA!

# BOYCOTT

the May 2004 Canada Census Test

**COUNT ME OUT!**

Lockheed-Martin, the world's #1 weapons giant, is working on the next Canadian Census. Your tax dollars, and maybe personal info, will go to a non-Canadian corporation that makes landmines, nuclear bombs, and Star Wars missile-defense parts -- weapons Canadians have rejected, with good reason, for decades. And because Lock-Mart is American, George Bush **might** be able to **secretly seize** Canada's Census data using the US Patriot Act.

Keep our census **Canadian** and personal info **safe**. **BOYCOTT** this preliminary test. It's legal and easy: Just write "Vive Le Canada" across your questionnaire in red ink and send it back blank. Say no to war profits and privatization at the same time. StatCan has always done fine **by itself**.
